

The Director Central Intelligence

Washington, D. C. 20505

21 October 1977

Dear Cantila,

I have just received your letter in which you advise that you have been assigned to Miramar Naval Air Station. It must be exciting for you and your family now that you are so close to retirement.

I wish I were in a position to help again but am reluctant because it is not really beneficial to the Navy to send you to school just before you retire. I would imagine this is why BUPERS has not been responsive to your request for BEQ Management School.

Once you arrive at Miramar and get into the job there, I'm sure prospects will look much brighter to you. Please know that you have my best wishes for every success in the future.

Yours,

STANSFIELD TURNER
